Profile

I'm a **first-year Cyber Security student** at **Sri Sairam Engineering College** with a passion for **building, breaking, and securing tech**. I enjoy exploring **Blockchain, AI, and Automation**, and I'm actively learning **full-stack development** to bring ideas into real projects. I've participated in **coding challenges, CTFs**, and am now diving into **hackathons** to solve **real-world problems** with creative, practical solutions.

Curious, adaptive, and a fast learner — I thrive in **collaborative environments** and love experimenting with **new tools**, whether it's writing **smart contracts**, **automating workflows**, or designing **secure systems**. My goal is to grow as a **developer**, contribute to **impactful projects**, and push boundaries in the fields of **cybersecurity and emerging tech**.
